

Contents

Course Objectives	i
Part 1: Introducing Full Disk Encryption	i
Part 2: Support and Maintenance	i
Part 3: SmartCenter for Full Disk Encryption - webRH	ii
Full Disk Encryption Administration	iii
Course Layout	iv
Prerequisites	iv
Recommended Setup for Labs	v
A Note on using VMware	vi
Learn More	vi
Chapter 1 Full Disk Encryption Overview	1
Full Disk Encryption Data-Security Technology	3
File and Disk Encryption	4
Boot Protection/Authentication	4
The Check Point Total Security Model	6
Full Disk Encryption Security Features	11
Languages Supported in Full Disk Encryption	12
Managing Full Disk Encryption	12
Authentication Methods	14
Recovery	17
Full Disk Encryption Authority Levels	18
Automatic Logging and Centralized Auditing	21
Remote Help	22
Full Disk Encryption Licensing	23
Full Disk Encryption Components	24
Full Disk Encryption Database	24
Full Disk Encryption Boot Authentication	25
Full Disk Encryption Management Console	27
Full Disk Encryption Encryption-Key Generation	28
Services and Processes	30
System Requirements	32
Supported Operating Systems	32
Operating-System Requirements/Limitations	32
File Systems/Volumes/OS Upgrades	33
Software Incompatibilities	34
Known Limitations	35
Lab 1: Installing Full Disk Encryption	37
Review	51
Review Questions	51

Chapter 2	The Full Disk Encryption Management Console	53
	Overview of the Full Disk Encryption Management Console	55
	Management Authentication	55
	FDEMC Dialog Box	58
	The Local Folder	60
	Edit Settings	61
	The Remote Folder	72
	Configuration Sets	73
	Working with Profiles	75
	Group Authority Levels	79
	GALs and Permissions	80
	GALs and Remote Help	81
	Lab 2: Creating Configuration Sets and Profiles	83
	Review	111
	Review Questions	111
Chapter 3	Full Disk Encryption Management	115
	Tips for Deployment	117
	Deployment Checklist	117
	Full Disk Encryption Maintenance	125
	Working with Update Profiles	126
	Creating an Update Profile	127
	Deleting a User Through the Update Profile	127
	Machine-Specific Update	127
	Pushing Update Profiles to Computers	128
	Upgrading Full Disk Encryption	129
	Upgrading from versions 4.x and 5.x	129
	Remote Help	135
	Types of Remote Help	136
	User Verification	137
	Properties of Remote Help	138
	Using a Service Start Account	139
	General Requirements	139
	Setup Example	140
	Lab 3: Deploying Full Disk Encryption	147
	Lab 4: Removing User Profiles	155
	Lab 5: Using Remote Help	163
	Review	169
	Review Questions	169
Chapter 4	Full Disk Encryption Log Management	171
	Pointsec Auditing	173
	Full Disk Encryption Log	173
	Manually Transferring the Local Log File to the Central Log File	176
	Timestamps and the Windows Event Log	177

Windows Event Viewer	177
Viewing a Local Log File	177
Log Structure	180
Exporting of Audit Logs	181
Review	185
Review Questions	185

Chapter 5 Uninstallation, Recovery and Troubleshooting 187

Uninstallation Types	189
Creating and Deploying an Uninstall Profile	189
Windows Add/Remove Programs	191
Recovery	193
Recovery and the Full Disk Encryption Version on the Client	193
Recovery Methods	194
Uninstallation via Recovery Media	197
Booting from Alternative Media	199
Preboot Customization Menu	200
Customizing and Branding Full Disk Encryption	201
Customizing	201
Troubleshooting a Failed Installation	203
Using Reco_img.exe	203
Lab 6: Uninstalling from Removable Media	205
Lab 7: Upgrading Full Disk Encryption 6.x.x to a custom Full Disk Encryption 7.0 installation	213
Review	219
Review Questions	219

Chapter 6 SmartCenter for Pointsec - webRH 223

SmartCenter for Pointsec - WebRH Overview	225
SmartCenter for Pointsec - webRH Installation	226
User Requirements	226
System Requirements	226
HD-staff Requirements	227
Full Disk Encryption Requirements	227
Browser Requirements	228
Installing SmartCenter for Pointsec - webRH	228
SmartCenter for Pointsec - webRH SQL Database Installation	228
SmartCenter for Pointsec-webRH Web Application	229
SmartCenter for Pointsec - webRH Administration	230
Managing Organizational Units	230
Getting Started using SmartCenter for Pointsec - webRH	232
Managing OU Groups	234
Managing User Accounts	236
Managing Authentication Tokens	238
Configuring Password Settings	240
Password Complexity	241
Disabling Fixed Passwords	242

Using Remote Help	242
Log Files in SmartCenter for Pointsec - webRH.....	243
Review.....	247
Review Questions.....	247
Review Answers	249
Chapter 1: Full Disk Encryption Overview	249
Chapter 2: Full Disk Encryption Overview	250
Chapter 3: Pointsec Helpdesk	250
Chapter 4: Full Disk Encryption Log Management	251
Chapter 5: Uninstallation, Recovery and Troubleshooting	251
Chapter 6: SmartCenter for Pointsec - webRH.....	252
Lab: Windows Integrated Logon (WIL) & Full Disk Encryption	253
Lab: Configuring Full Disk Encryption for SmartCard Authentication	257
