Course Objectives	vii
Preface: Pointsec PC Administration ver. 6.3	1
Course Layout	2
Prerequisites	2
Recommended Setup for Labs	3
A Note on using VMware	4
Training and Certification	5
CCMA	6
Learn More	6
Check Point Security Architecture	7
Unified Security Architecture	8
Complete Protection	9
Broad Range of Security Solutions	10
Network Security	11
Data Security	13
Security Management	14
Services	15
Chapter 1 Pointsec PC Overview	19
Pointsec Data-Security Technology	21
File and Disk Encryption	22
Boot Protection/Authentication	22
The Check Point PURE Security Model	24

Pointsec PC Security Features	29
Languages Supported in Pointsec PC	30
Managing Pointsec PC	30
Authentication Methods	32
Recovery	35
Pointsec PC Authority Levels	36
Automatic Logging and Centralized Auditing	39
Remote Help	40
Pointsec PC Licensing	40
Pointsec PC Components	41
Pointsec PC Database	41
Pointsec PC Boot Authentication	42
Pointsec PC Management Console	44
Pointsec PC Encryption-Key Generation	45
Services and Processes	48
System Requirements	50
Supported Operating Systems	50
Unsupported Operating Systems	50
Operating-System Requirements/Limitations	50
File Systems/Volumes/OS Upgrades	52
Software Incompatibilities	53
Known Limitations	54
Lab 1: Installing Pointsec PC	57
Review	71

Chapter 2 The Pointsec PC Management Console 73

Overview of the Pointsec PC Management Console	75
Management Authentication	75
PCMC Dialog Box	79
The Local Folder	81
Edit Settings	82
The Remote Folder	94
Configuration Sets	95
Working with Profiles	97
Group Authority Levels	102
GALs and Permissions	103
GALs and Remote Help	104
Lab 2: Creating Configuration Sets and Profiles	107

Review	143
Chapter 3 Pointsec PC Management	147
Tips for Deployment	149
Deployment Checklist	149
Pointsec PC Maintenance	157
Working with Update Profiles	158
Creating an Update Profile	159
Deleting a User Through the Update Profile	160
Machine-Specific Update	161
Pushing Update Profiles to Computers	161
Upgrading Pointsec PC	163
Upgrading from versions 4.x and 5.x	163
Upgrading from Version 6.x.x to 6.3.1	165
Remote Help	168
Types of Remote Help	169
User Verification	170
Properties of Remote Help	171
Using a Service Start Account	172
General Requirements	172
Setup Example	173
Lab 3: Deploying Pointsec PC	181
Lab 4: Removing User Profiles	193
Lab 5: Using Remote Help	205
Review	211
Chapter 4 Pointsec PC Log Management	213
Pointsec Auditing	215
Pointsec PC Log	215
Manually Transferring the Local Log File to the Central Log File	218
Timestamps and the Windows Event Log	219
Windows Event Viewer	219
Viewing a Local Log File	219
Log Structure	222
Exporting of Audit Logs	222

Review	227
Chapter 5 Uninstallation, Recovery and Troubleshooting	229
Uninstallation Types	231
Creating and Deploying an Uninstall Profile	231
Windows Add/Remove Programs	233
Recovery	235
Recovery and the Pointsec PC Version on the Client	235
Recovery Methods	236
Uninstallation via Recovery Media	239
Booting from Alternative Media	240
Preboot Customization Menu	241
Customizing and Branding Pointsec PC	242
Customizing	242
Troubleshooting a Failed Installation	244
Using Reco_img.exe	244
Lab 6: Uninstalling from Removable Media	247
Lab 7: Upgrading Pointsec PC 6.1.3 to a custom Pointsec PC 6.3 installation	257
Review	263
 Chapter 6 SmartCenter for Pointsec - webRH	 267
SmartCenter for Pointsec - WebRH Overview	269
SmartCenter for Pointsec - webRH Installation	270
User Requirements	270
System Requirements	270
HD-staff Requirements	271
Pointsec PC Requirements	271
Browser Requirements	272
Installing SmartCenter for Pointsec - webRH	272
SmartCenter for Pointsec - webRH SQL Database Installation	272
SmartCenter for Pointsec-webRH Web Application	273
SmartCenter for Pointsec - webRH Administration	274
Managing Organizational Units	274
Getting Started using SmartCenter for Pointsec - webRH	276

	Managing OU Groups	278
	Managing User Accounts	280
	Managing Authentication Tokens	282
	Configuring Password Settings	284
	Password Complexity	285
	Disabling Fixed Passwords	286
	Using Remote Help	286
	Log Files in SmartCenter for Pointsec - webRH	287
	Review	291
Appendix A	Review Answers	293
Appendix B	Windows Integrated Logon (WIL) & Pointsec PC	299
Appendix C	Configuring Pointsec PC for SmartCard Authentication	303
