

# Arcopedico Modernizes IT Infrastructure and Security

Check Point Infinity Architecture Prevents Advanced Threats Across Network, Cloud, and Mobile with Zero-Day Protection and Consolidated Management

“With Check Point Infinity we are now taking a pre-emptive approach to our IT security. We are preventing cyber attacks from entering the network. Plus, we know that every aspect of our business is covered: networks, cloud and mobile.”

Arcopedico is a Portuguese company that produces ergonomic footwear.

— Serafim Couto,  
Information Technology  
Department Manager, Arcopedico

## Challenge

- Existing corporate firewall had limited functionality and needed replacing
- Corporate devices connecting to external networks were exposing the company to cybersecurity threats

## Solution

- Check Point R80.10 Security Management
- Check Point SandBlast Zero-Day Protection

## Results

- Advanced threat prevention, not just detection
- Better visibility of network usage and easier identification of security breaches
- Ability to create dynamic security policies
- Comprehensive protection of all devices on both network and mobile
