

Electric Motor Manufacturer Completes Mobile Security with Check Point Solutions

Italian multinational, Askoll, secures its mobile workforce with Check Point SandBlast Mobile

“We’ve reduced the number of firewall rules in our Italian data centers by more than half thanks to the new Check Point solutions. Overall, we succeeded in reducing the time and effort spent on security problems by 40%.”

— Moreno Panetto, IT Systems Manager, Askoll

The Askoll Group is a leading company in the manufacturing of electric motors

Industry: Manufacturing
