

BH Telecom consolidates their security in the cloud

Check Point CloudGuard IaaS provides a comprehensive security platform as Bosnian telecommunications leader accelerates digital transformation

“CloudGuard IaaS was easy to purchase, implement and simple to use. It enabled us to bring everything together in just one solution. We rely heavily on Check Point and see it as a thought leader in the security space.”

BH Telecom is the leading telecoms provider in Bosnia and Herzegovina. It has 2 million customers and over 3,000 employees.

Industry: Telecommunications

— Edina Muminovic, Head of Service Integration and Security, BH Telecom

Challenge

- Simplify security management as BH Telecom accelerates its digital transformation
- Enable scalability as the business delivers new cloud-based services

Solution

- Check Point CloudGuard IaaS

Results

- Established a comprehensive security approach with just one vendor, simplifying management and clarifying future roadmaps
- Enabled BH Telecom customers to independently manage their own security in the BH Telecom data center, and for BH Telecom to offer security-as-a-service
