

Cadence Uses CloudGuard Dome9 for Robust Security Across Its Multi-Cloud Environment

cādence

“When deploying a multi-cloud environment, you need to have a consistent tool that plays across all the platforms. Using the cloud-agnostic CloudGuard Dome9 service, I only need to train an individual on onaset of tools and he can manage our total cloud environment very effectively.”

— Sreeni Kancharla,
CIO & Sr. Group Director
Cadence

Headquartered in Silicon Valley, Cadence Design Systems, Inc., founded in 1988 is a global technology company that spans 40+ countries with over 8,000 employees worldwide.

Challenge

- Centralized security management with visibility and control over its multi-cloud environment
- Enforcement of access to ports and services, providing multiple user access while protecting customer data.
- Demonstrate consistency with industry standards such as ISO 27001 and cyber security best practices

Solution

- Check Point [CloudGuard Dome9 Clarity](#)
- Check Point [CloudGuard Dome9 Active Protection](#)
- Check Point [CloudGuard Dome9 Compliance and Governance](#)

Results

- Enabled efficiency and agility , allowing security team to focus on higher level tasks.
- Saved more than \$450,000 annually, Letting them run lean.
- Minimized personnel training requirement to only one person to manage multi-cloud environment.
