

# Invitalia secures perimeters to drive economic growth

Check Point Infinity Total Protection automates cloud security and creates a single management console for Italian government agency

“A cloud-first strategy dramatically alters your perimeter. With Check Point Infinity, we no longer need a tool for mobile, a tool for the firewall, or a tool for the software-as-a-service. We have everything in one place.”

Invitalia is the national agency for coordinating investment and development throughout Italy. — Alessio Antolini, Security Architect, Invitalia

**Industry: Government**

## Challenge

- Secure critical data and assets as agency pursues cloud-first strategy
- Reduce strain on in-house cybersecurity team in face of escalating number of attacks

## Solution

- Check Point Infinity Total Protection
- Check Point Harmony Endpoint
- Check Point Harmony Mobile
- Check Point CloudGuard Network Security
- Check Point CloudGuard Posture Management

## Results

- Creates a single view of the security landscape across cloud deployments
- Simplifies security management for a small team of two
- Establishes the scale and flexibility to adapt in line with spikes in threat levels
