

Protecting artists and their creations with Check Point Maestro

LUMA Foundation implements Check Point security to hyperscale and support the ever-changing needs of the creative world of LUMA Arles

“We chose Check Point Maestro because it was the best fit for our expansion needs which change from one day to the next, and because it offers the best security performance.”

– Laurent Duquenne, CIO, LUMA Foundation

LUMA Foundation focuses on relationships between art, culture, human rights, environment, education and research.

Industry: Entertainment & Leisure

L U M A A R L E S

Challenge

- Protect workstations and digital assets while maintaining free and secure access for clients and visitors
- Deliver a scalable solution that can meet the varying needs of the art world

Solution

- Check Point Quantum Maestro

Results

- Ability to provide hyper scalable security both for internal systems and for the hundreds of visitors who attend exhibitions and events
- Protection of digital collections, ensuring that works of art cannot be damaged or tampered with
