

NHS England provides 7,000 agile workers with Check Point secured mobile devices

NHS England adopts smarter working and strengthens mobile security with Check Point SandBlast Mobile

“Check Point SandBlast Mobile is incredibly easy to administer. We wanted a solution that didn’t overwhelm us or require too much resource to manage.

— David Wright, Head of IT Service Management, NHS England

NHS England is the organization responsible for overseeing the budget, planning, delivery and day-to-day operation of the commissioning side of the National Health Service in England

Industry: Healthcare
