

Pérez-Llorca protects corporate reputation with Check Point

Check Point R80 and SandBlast Mobile establish a unified platform that enables a mobile workforce while protecting their network from advanced threats

“Everything is now managed in the same way. We avoid misconfigurations, we’re reusing agreed rules, and issues are easier to deal with.”

Pérez-Llorca is an international law firm based in Madrid, with offices in Barcelona, London and New York

Industry: Legal

— Aitor Lasala, CTO, Pérez-Llorca

Pérez-Llorca

Challenge

- Simplify management of network and perimeter security threats
- Ensure endpoint protection for increasing mobile workforce

Solution

- Check Point R80
- Check Point SandBlast Mobile

Results

- Created a single platform on which to manage network and perimeter security
- Reduced time spent on managing security by 50%
- Protected 350 mobile devices for global workforce
