DATASTREAM CONNEXION IS BUILDING SECURE FEDERAL AND HEALTHCARE APPLICATIONS WITH CLOUDGUARD POSTURE MANAGEMENT

"We have not had to increase our headcount in moving to the cloud because of the comprehensive and easy network security and compliance CloudGuard Posture Managemet provides."

— Eric Hoffman, President

DataStream Connexion is a premier technology consulting and web application development agency.
Industry: Technology Solutions

Challenge

- Simplify implementation to limit vulnerabilities and mitigate risks
- Enable strict policies for different security groups, to limit access to sensitive environments
- Automate and validate compliance status at scale of FedRAMP, NIST and HIPAA for Government and healthcare customers

Solution

- Check point CloudGuard Posture Management
- Check point CloudGuard Posture Management Clarity
- Check point CloudGuard Posture Management Continous Compliance

Results

- Provided powerful security visibility enabling flexibility and insight into real-time network activity
- Allowed easy verification and demonstration of compliance to customers
- Proved, with the right tools, the AWS environment would be the right environment for Federal and Health care sensitive workloads
