

A community hospital in the western United States Proactively Defends Assets against Cyber Threats

Check Point stops spam, spoofing, and advanced threats while simplifying management.

“Check Point does everything well. Spam and email spoofing are gone. My depth of knowledge and insight into our security environment quintupled. I save at least three to four hours each week simply being able to see everything in one place.”

- CIO,
Community Hospital in Western
United States

INDUSTRY

Healthcare

Challenge

- Simplify security management
- Protect end users from email based threats
- Prevent crypto-threats from disrupting operations

Solution

- Check Point SandBlast Network
- Check Point R80 Security Management

Benefits

- Gained visibility into security infrastructure from edge to core in a single pane of glass
- Eliminated spam and email spoofing
- Prevented crypto locker from affecting systems
