

Covinoc Implements End-to-End Data Security and Frees Up Teams for Strategic Innovation

Covinoc, a Colombian company based in Bogotá, provides debt servicing, collection, and management services.

"Everyone wins. Our internal users rarely see spam and can work securely from anywhere. Our engineers spend far less time solving endpoint problems. And our affiliates know that their services are always available, safe, and encrypted."

- Edwin Perez,
Technology Manager, Covinoc

Challenge

- Secure internal and affiliate data all the time, everywhere
- Protect data center networks from a heightened threat landscape
- Secure mobile laptops

Solutions

- Check Point Quantum Security Gateways
- Check Point Harmony Endpoint
- Check Point R80 Security Management

Benefits

- Dramatically increased end-to-end security, from data center to mobile endpoints
- Transformed technical team, from reactive problem-solvers to strategic innovators
- Delivered high-performance services and data security peace of mind
