

Global Chemical Manufacturer Grace Secures Cloud Digital Transformation with Check Point Harmony Solutions

Grace is a global leader in specialty chemicals and materials.
Industry: Technology Solutions

“In the new SD-WAN environment with Harmony Connect, we can deploy a site in five minutes or less – including getting a cup of coffee in the middle of the process. It is a phenomenal solution that is quick to deploy, built on a very secure platform that we’re comfortable with.”

— David Antlitz, Global Manager,
Security and Firewall
Technologies, Grace

Challenge

- Migrate securely from an on-premises to SDWAN infrastructure
- Protect O365 users from malware, phishing, and malicious attacks
- Enhance IT resource utilization

Solution

- Check Point Harmony Connect
- Check Point Harmony Email & Office

Results

- Gained comprehensive threat protection and prevention for remote SD-WAN sites
- Simplified management and freed up staff to focus on more strategic tasks
- Protected SaaS applications from phishing, account hijacking, and other threats
