

Koch Media Levels Up Security to Protect Intellectual Property Against Attackers

Check Point SandBlast Secures Game Code and Centralizes Security Management

“Check Point secures our ‘last mile’ of file delivery. We gained end-to-end infrastructure protection with the ability to see what SandBlast blocks. It’s highly effective.”

–Liang Zhang
Director of Networking and Security
Koch Media GmbH/Deep Silver

Koch Media is a German producer and marketer of digital entertainment products.
Industry: Entertainment

KOCH MEDIA

Challenge

- Secure applications and intellectual property, such as game code
- Stop malware and a range of zero-day threats
- Centralize and simplify management across 25 locations

Solution

- Check Point SandBlast Zero-Day Protection

Results

- Stopped threats that otherwise would have not been discovered
- Gained consistent end-to-end protection across all company locations
- Secured applications with fine-grained policies to protect code from unauthorized users
- Saved hours of time through automation and centralized visibility
