

# Lindenwood University Secures In-Person and Remote Learning with Check Point

Lindenwood University is a private liberal arts university in the U.S.

"Lindenwood University values our students. It is very important that we allow students access to their Learning Management System platform and to the hybrid class environment that is offered. Check Point has allowed us to protect our student's data while being able to continue to learn through today's global pandemic."

- Brayden Helgen,  
Supervisor of IT, Network, and Security,  
Lindenwood University
