

Major Aerospace Company Accelerates Secure Growth with Check Point

This major aerospace customer is a leading supplier to the global aerospace and defense industry.

“Check Point’s Maestro Hyperscale Orchestrator allows us to add capacity on the fly, allowing us to optimize our network and provide the customer with the best experience and lowest latency possible.”

— Manager, IT Security

Challenge

- Protect corporate and national security assets
- Support highly burstable traffic loads across a global network
- Improve productivity of IT resources

Solution

- Check Point Quantum Maestro
- Check Point Quantum NGFW
- Check Point 80

Results

- Gained comprehensive protection across multiple attack vectors
- Enabled high-availability architecture for zero downtime
- Provided flexible, resilient and scalable security capacity
