

# NHS Scotland ensures security of vital health data with Check Point

“Check Point Maestro allows us to hyperscale. As we start to scale out services and data volumes, I don’t have to keep adding new configurations.”

— Deryck Mitchelson, Chief Information Security Officer, NHS Scotland

National Health Service (NHS) Scotland employs 140,000 staff who provide public health and social care services to the population in Scotland.

## Challenge

- Need to protect vital patient healthcare data held in the public cloud
- Provide complete threat prevention against cyberattacks
- Ability to deliver a dynamic and scalable solution for growing data volumes

## Solution

- Check Point CloudGuard Network Security
- Check Point Quantum Maestro
- Check Point Harmony Endpoint

## Results

- Vital security for sensitive healthcare data and visibility into how this data is accessed and used
- Ease of deployment, management and maintenance of cloud security with scalability
- Compliance with GDPR and national legislation on data security
- Seamless integration with existing SIEM solution
