NHS Scotland ensures security of vital health data with Check Point

“Check Point Maestro allows us to hyperscale. As we start to scale out services and data volumes, I don’t have to keep adding new configurations.”

— Deryck Mitchelson, Chief Information Security Officer, NHS Scotland

Challenges
• Need to protect vital patient healthcare data held in the public cloud
• Provide complete threat prevention against cyberattacks
• Ability to deliver a dynamic and scalable solution for growing data volumes

Solution
• Check Point CloudGuard IaaS
• Check Point Maestro
• Check Point SandBlast Agent

Benefits
• Vital security for sensitive healthcare data and visibility into how this data is accessed and used
• Ease of deployment, management and maintenance of cloud security with scalability
• Compliance with GDPR and national legislation on data security
• Seamless integration with existing SIEM solution

National Health Service (NHS) Scotland employs 140,000 staff who provide public health and social care services to the population in Scotland.
