

Optix Protects Clients' Business Data While Gaining Visibility

Check Point Small Business Appliances provide secure VPN connections with simplified managements

Optix develops and secures practice management software for opticians throughout the U.K.
Industry: Healthcare

“The Check Point Small Business appliances just do their jobs. They don't require much time or IT intervention, which gives us peace of mind.”

–Trevor Rowley
Managing Director
Optix Business Management Software

Challenge

- Gain stronger protection for client business data
- Ensure a secure VPN connection for each client
- Simplify management for hundreds of connected appliances

Solution

- Check Point Small Business Appliances
- Check Point Security Management Portal

Results

- Ensured secure connections for more than 800 clients
- Saved time and reduced management costs
- Minimized management expertise required
