

Paschoalotto Depends on Check Point for Scalable Security

Check Point R80 and SandBlast Mobile establish a unified platform that enables a mobile workforce while protecting their network from advanced threats

“Our major customers are financial companies with strong security requirements. As a partner, we have to be able to scale quickly to meet our customers’ needs. Check Point gives us instant scalability while providing the highest level of security.”

— Alan Cosin, Chief Information Officer, Paschoalotto

Challenge

- Meet the highest level of security as required by customers and government privacy laws
- Deliver a flexible security architecture that can scale instantly in an environment of hyper-growth
- Integrate the company’s multiple sites and private cloud under a single unified management system

Solution

- Check Point CloudGuard Posture Management
- Check Point Infinity Total Protection
- Check Point CloudGuard Network Security
- Check Point Harmony Mobile
- Check Point Harmony Endpoint

Results

- Implemented a flexible distributed architecture under Maestro Orchestrator to provide instant scalability and resilience
- Delivered seamless integration and protection of private cloud
- Provided unified management and detailed reports in a “single pane of glass”

Paschoalotto is a leading call center for the financial industry in Brazil.
