Provision-ISR Scores Industry Leadership, Customer Trust, and New Opportunities with Check Point Quantum IoT Protect

Provision-ISR provides high-quality innovative CCTV products that help keep customers safe and ensure their privacy.

"Check Point IoT Protect Nano Agent gives us a robust, end-to-end security solution for our customers. Provision-ISR cameras will have next-generation cybersecurity provided right out of the box, with plug-and-play implementation."

- Yonatan Pick,
  Chief Technology Officer, Provision-ISR

Challenges

- Address security vulnerabilities associated with IP security cameras and other IoT devices
- Enable customers to address privacy issues and cybersecurity challenges
- Add leading-edge security capabilities to devices with limited CPU and bandwidth capacity efficiency

Solutions

- Check Point Quantum IoT Protect with Nano Agent
- Check Point Infinity Next

Benefits

- Market-leading cybersecurity embedded into high-quality IP cameras for secure CCTV products right out of the box
- Gives customers leading-edge security defenses to maintain privacy and reduce risk
- Simplifies the installation of innovative, secure IP cameras without the worry of vulnerabilities
