

## Ultima Enables Employees with On-the-Go Security

Check Point Capsule Cloud Protects Ultima's Laptops from Advanced Threats and Ransomware In and Out of The Office

Ultima Business Solutions provides IT services throughout the U.K.

**Industry:** IT Services

“Check Point Capsule Cloud provides us with confidence with an extra layer of security. It does more than just protect devices—it also helps us protect and enhance our reputation as a managed services provider.”

–Chris Watkins  
Solutions Architect for Security  
Ultima Business Solutions

# ultima

### Challenge

- Protect employee laptops from zero-day malware and from suspicious sites and applications while outside the security perimeter
- Provide comprehensive visibility into threats on laptops used outside the perimeter
- Integrate with Ultima's “cloud-first” secure cloud migration program

### Solution

- Check Point Capsule Cloud

### Results

- Protects laptops everywhere from advanced threats using SandBlast zero-day malware protection
- Ensures appropriate use of laptops and access to legitimate content only
- Delivers instant visibility into threats and laptop usage for devices used outside the office
- Scaled protection as needed to continually defend against evolving threats
- Maintains protection and business continuity with support for easy-to-upgrade virtual deployment
