

Brazilian University, Unisinos, Simplifies Cyber Security Management

Check Point Provides Visibility into the Entire Threat Landscape and Unifies Policy Management

Unisinos is one of the largest private universities in Brazil

“We’re able to review and monitor our entire threat landscape on a daily basis, creating new rules and removing old rules. We’re always looking for greater protection.”

— Maikon Rodrigo Graeff, Security Expert
Unisinos

Challenge

- Provide real-time visibility of the threat landscape
- Improve security capacity as the university expands and becomes increasingly networked

Solution

- Check Point R80 Security Management
- Check Point CloudGuard IaaS
- Check Point Security Appliances
- Check Point Virtual Systems

Results

- Real time visibility of threat landscape
- Centralized management allows the university’s IT team to make daily changes to security policies, strengthening security
