CHECK POINT

Boost Your MSSP Business

Top Tier Security through a Simple, Scalable and Profitable program

The MSSP market is expanding rapidly as more customers of all sizes are relying on Managed Security Service Providers (MSSPs) for expert-driven, reliable security services. This presents an unparalleled opportunity for MSSPs to grow with new clients and strengthen their presence with existing ones. However, this growth also brings challenges for MSSPs regarding management, resources, and profitability.

Check Point's MSSP Program: Simple, Scalable, Profitable

Tailored for MSSPs, this unique program provides advanced security solutions, scalable technology, and dedicated support to making it easier than ever to deliver managed security services. The AI-powered, cloud-delivered Infinity Portal simplifies security operations with centralized management, seamless onboarding, and multi-tenancy—saving valuable resources and empowering MSSPs to scale efficiently.

The platform's architecture and flexible business models empower MSSPs to create new revenue streams, improve margins, and minimize financial risk. With commitment-free models, no upfront costs, and tiered payment options—including subscription and Pay-As-You-Go—MSSPs can provide expert-driven security while ensuring maximum profitability.
