Firewall-as-a-Subscription

Medium Tier — 20, 28 or 36 Gbps of AI-Powered Threat Prevention

(3 or 5 Year Subscription • Annual or Monthly Billing • Built on Force 19200 Firewall

Check Point Firewall-as-a-Subscription turns a large upfront firewall purchase into one predictable monthly or annual payment. We carry the CapEx, so you can secure your network now. Start with the throughput you need today, scale as you grow, and benefit from a 99.9% block rate against zero-day attacks, 24×7 support, cloud-based management, and policy migration, all included in a single subscription.

Check Point Force 19200 Firewall

Why Choose a Subscription Over an Outright Purchase?

- **CapEx blocks security:** Equipment purchases require depreciation accounting, capital approvals, and longer budgeting cycles that can delay critical security investments. We believe security shouldn't have to wait for budget approvals.
- **Stop buying 3x the firewall you need:** Many firewall projects are sized for future growth, forcing organizations to pay today for capacity they may not need for years. Start with the throughput you need today and scale as you grow.
- **Leave your old firewall behind:** Switching firewall vendors can be complex and costly. To make migration easier, every subscription includes 150 Check Point Global Services Flex Credits, enough to cover policy migration from another vendor's firewall.
- **Pay for what you need today:** Traditional firewall purchases often force you to plan years ahead and pay for capacity you may never use. With Firewall-as-a-Subscription, you can start with the throughput you need today and scale as your business grows.

Advantages of the Subscription Model

- **Always current:** Continuous protection against evolving threats with the latest AI-powered threat intelligence and zero-day prevention - no end-of-life surprises.
- **Right-sized to your business:** Pay only for the throughput you use today. Scale up when you need to — without re-budgeting or replacing hardware.
- **Frictionless migration:** Professional Policy migration from your incumbent firewall is included via Check Point experts, regardless of vendor.
- **OpEx alignment:** Subscription pricing fits cleanly into operating budgets and simplifies expense management for finance teams.

What's Included in Every Subscription

SOLUTION/SERVICE	DESCRIPTION
Force Firewall	AI-powered next-generation firewall sized and priced to your subscribed throughput.
Threat Prevention & SandBlast	Comprehensive Layer 1–7 threat prevention with a 99.9% block rate against zero-day attacks, including IPS, anti-malware, anti-bot, sandboxing, and AI-driven phishing protection.
Direct or Collaborative Premium Support**	24×7 enterprise-grade support — choose Premium Direct (Check Point-led) or Collaborative Premium (partner-delivered with Check Point backing).
Smart-1 Agentic Management package	Cloud-delivered security management — eliminates the need for additional on-premises management infrastructure. Existing SMS/MDS deployments can also be used.
Check Point Global Services	150 IGS Flex Credits — enough to cover policy migration from another vendor's firewall, or redeemable against any other Check Point professional service.

** *For additional peace of mind, Check Point and partners also offer 24/7 Incident Response, Fully Managed Firewall Service, MDR/XDR, and Managed SOC services at additional cost.*

Anytime Scalability - One Platform, Four Throughput Levels

Every Medium-tier subscription is delivered on the same **Force 29200 Firewall** platform - rated for up to 44 Gbps of Threat Prevention. This means you can upgrade your subscribed throughput at any time within the tier (**20 → 28 → 36 Gbps**) through licensing alone, with **no hardware replacement, no shipping, and no service interruption**.

Available in-tier upgrade paths:

- 20 Gbps → 28 or 36 Gbps Threat Prevention
- 28 Gbps → 36 Gbps Threat Prevention

Need to move beyond 36 Gbps? *Cross-tier upgrades to the Medium or Large subscription require new hardware and a fresh subscription contract - available after the initial 3-year commitment is complete.*

Built on Force 19200 Firewall

A 2RU AI-powered next-generation firewall purpose-built for enterprise data centers. Designed for hyperscale workloads with high-density port options, dual redundant storage and power, and ASIC-accelerated 40/100G interfaces - delivering sustained Layer 1–7 threat prevention even with full security services enabled.

Specification	Force 19200 Firewall
Form factor	2RU rack-mountable, modular high-density chassis
Threat Prevention throughput	Up to 44 Gbps (Layer 1–7 inspection enabled)
NGFW throughput	Up to 100 Gbps
Firewall throughput	Up to 245 Gbps; up to 800 Gbps UDP (1518B)
TLS inspection (Threat Prevention)	Up to 18.6 Gbps; supports TLS 1.3 and HTTP/2
VPN throughput (AES-GCM)	Up to 86 Gbps
Connections per second	Up to 1,000,000
Network I/O	2× 1/10G copper management + 2× 1/10/25G SFP28 sync ports, plus four configurable I/O slots: up to 32×1/10G, 18×10/25G, or 8×40/100G with hardware acceleration
High Availability	ClusterXL active/active or active/passive; VRRP supported. Dual hot-swap power supplies (order quantity 2 for HA)
Datasheet	See Force 19200 Firewall datasheet for full specifications.

Key Terms & Conditions

- **Minimum commitment:** 3 years (5-year terms also available).
- **Intermediate throughput upgrades:** Available at any time within the tier (20/28/36 Gbps).
- **Cross-tier hardware upgrades:** Available after the 36-month commitment, via a new subscription contract.
- **Billing options:** Annual or monthly invoicing.
- **Activation:** License validity begins on activation, with a 60-day grace period from shipment.
- **Auto-renewal:** Subscription continues automatically after the committed term, one year at a time, with no end date, using the original payment method (annually or monthly).
- **Cancellation:** Allowed only after the committed term has completed; equipment returned via standard RMA process.
- **Hardware ownership:** Title remains with Check Point throughout the subscription.
- **Check Point ELA:** This subscription can be consumed as part of a Committed Spend Check Point ELA.
- **Not included:** Optional blades (SD-WAN, VSX, IoT), additional interfaces, and SFPs are sold separately.

Ordering SKUs

Annual and monthly SKUs for 3-year commitments are listed below. 5-year (5Y / 60M) variants follow the same pattern.

Throughput	Support	Annual Payment SKU (3Y)	Monthly Payment SKU (36M)
20 Gbps	Premium Direct	CPAP-SGAAS-20G-PREMIUM-3Y	CPAP-SGAAS-20G-PREMIUM-36M
20 Gbps	Collaborative Premium	CPAP-SGAAS-20G-CO-PREM-3Y	CPAP-SGAAS-20G-CO-PREM-36M
28 Gbps	Premium Direct	CPAP-SGAAS-28G-PREMIUM-3Y	CPAP-SGAAS-28G-PREMIUM-36M
28 Gbps	Collaborative Premium	CPAP-SGAAS-28G-CO-PREM-3Y	CPAP-SGAAS-28G-CO-PREM-36M
36 Gbps	Premium Direct	CPAP-SGAAS-36G-PREMIUM-3Y	CPAP-SGAAS-36G-PREMIUM-36M
36 Gbps	Collaborative Premium	CPAP-SGAAS-36G-CO-PREM-3Y	CPAP-SGAAS-36G-CO-PREM-36M

SKU Legend

- **CPAP** - Product
- **SGAAS** - Firewall-as-a-Subscription
- **20G / 28G / 36G** - Threat Prevention throughput in Gbps
- **PREMIUM** - Premium Direct support (Check Point-led)
- **CO-PREM** - Collaborative Premium support (partner-delivered)
- **3Y / 5Y** - Annual payment, 3-year or 5-year term
- **36M / 60M** - Monthly payment, 36 or 60 months
- **UPG** - Upgrade SKU (applied to an existing active subscription)

Throughput Upgrade SKUs

Throughput upgrades on an active subscription are recognized via the following dedicated SKUs:

Upgrade Path	Support	Annual Payment SKU (3Y)	Monthly Payment SKU (36M)
20 → 28 Gbps	Premium Direct	CPSB-SGAAS-20GTO28G-PREMIUM-3Y-UPG	CPSB-SGAAS-20GTO28G-PREMIUM-36M-UPG
20 → 28 Gbps	Collaborative Premium	CPSB-SGAAS-20GTO28G-CO-PREM-3Y-UPG	CPSB-SGAAS-20GTO28G-CO-PREM-36M-UPG
20 → 36 Gbp	Premium Direct	CPSB-SGAAS-20GTO36G-PREMIUM-3Y-UPG	CPSB-SGAAS-20GTO36G-PREMIUM-36M-UPG
20 → 36 Gbp	Collaborative Premium	CPSB-SGAAS-20GTO36G-CO-PREM-3Y-UPG	CPSB-SGAAS-20GTO36G-CO-PREM-36M-UPG
28 → 36 Gbps	Premium Direct	CPSB-SGAAS-28GTO36G-PREMIUM-3Y-UPG	CPSB-SGAAS-28GTO36G-PREMIUM-36M-UPG
28 → 36 Gbps	Collaborative Premium	CPSB-SGAAS-28GTO36G-CO-PREM-3Y-UPG	CPSB-SGAAS-28GTO36G-CO-PREM-36M-UPG

How a Throughput Upgrade Works

To increase your subscribed throughput within the Small tier:

1. Log in the Check Point Product Catalog, and choose "Firewall-as-a-Subscription" to see all SKUs.
2. Select the SKU part number. The subscription page opens to complete the quote.

About Check Point

Check Point Software Technologies Ltd. (www.checkpoint.com) is a leading provider of cyber security solutions to governments and corporate enterprises globally. Its solutions protect customers from cyber attacks with an industry-leading catch rate of malware, ransomware and other types of attacks. Check Point offers a multilevel security architecture that defends enterprises' cloud, network and information held on mobile devices, plus the most comprehensive and intuitive unified security management system. Check Point protects over 100,000 organizations of all sizes.
