10 Users Licenses Endpoint, Mobile and Email Security

450 Mb/s Max Bandwidth

S2

Quantum Spark 1570 Wired/Wifi

25 Users Licenses Endpoint, Mobile and Email Security

500 Mb/s Max Bandwidth

S3

Quantum Spark 1590 Wired/Wifi

50 Users Licenses Endpoint, Mobile and Email Security

660 Mb/s Max Bandwidth

S4

Quantum Spark 1600 Wired

100 Users Licenses Endpoint, Mobile and Email Security

1,500 Mb/s Max Bandwidth

# WHAT DO WE PROTECT

MOBILE DEVICES

ENDPOINTS

CLOUD APPLICATIONS

ON-PREMISE

Ransomware

Phishing

Sandboxing

## The SMB Security Suite includes:

- **The Quantum Spark** featuring best-in-class threat protection, which is easy to deploy, manage and maintain. Integrates communication and security into an “all in one” security gateway with “out-of-the-box security” using top notch Threat Intelligence
- **Harmony Email & Collaboration** offers complete protection for SMBs cloud email. The advanced solution combines Anti-Phishing, including URL inspection and file sandboxing and sanitization (CDR), for incoming and internal Office 365 and Google Suite emails
- **Harmony Endpoint** delivers advanced threat protection for known, unknown and zero-day malwares, Sandbox Emulation and Extraction, enhanced by automated endpoint forensics analysis, access control and Web Protection features
- **Harmony Mobile** offers comprehensive, enterprise-grade mobile security that protects iOS and Android devices, apps, and the networks they depend on from advanced mobile threats. Protects against OS vulnerabilities, MiTM attacks and malicious apps

Availability of the SMB Security Suite is through authorized distributors only
