PROFESSIONAL SERVICES
HARMONY BROWSE JUMPSTART PROGRAM

The Harmony Browse Jumpstart service is meant to assist with designing, deploying, validating and supporting your 'Go Live' of up to 20 users.

THE SERVICE:
Harmony Browse Jumpstart includes the following activities:

Design and Planning
A. Discuss pre-requisites including but not limited to IP addressing, port communication.
B. Ensure the purchased software and licenses contain all the required components for the design.
   I. Gather information related to end user devices including OS version and build.
   II. Gather information related to server devices including OS version and build.
   III. Discuss minimum system resource requirement including but not limited to physical memory and disk space.
   IV. Ensure administrative privilege is available on end-user and server devices.
C. Check Point Professional Services will document and depict the deployment to ensure the fundamentals are correct from the beginning.
D. Detailed 'Method of Procedure' documentation defining the entire install process.

Pre-production and Implementation
A. Provide customer with the necessary cloud infrastructure access.
B. Pre-production setup and configuration of up to one (1) Harmony Browse management console.
C. Upload and configure Harmony Browse software packages in order to prepare the initial client package.
D. Configure and provide JSON and, if needed, install Browse agent (required for ChromeBook).
E. Provide the initial client to the customer for installation using SCCM or GPO.
F. Validate that the deployment was successful.
G. Define generic rule base and configure enterprise as per customer requirement.

Production Cutover:
A. Out of hours cutover/Go Live assistance.

Knowledge Transfer:
A. Management Setup, Installation and Maintenance.

Documentation:
A. Elaborate questionnaire to confirm connectivity requirements and proposed design.
B. Detailed 'Method of Procedure': a document depicting the entire install process with every command and configuration step used in the deployment.
C. Sign-off/Check sheet ensuring install to Check Point best practices.

Add-On options:
Additional blocks of user deployment in 50 user chunks.

Out of Scope:
➤ Deployment is limited to one (1) Harmony Browse infrastructure.
➤ Deployment, or pilot deployment, to a maximum of twenty (20) users.
➤ Policy conversion/migration from other third-party vendors to Check Point.
➤ Training material and delivery.
➤ Post 'Go Live' review or optimization.
➤ Uninstallation of any third-party vendor solutions from end-user or server machines.
