

PROFESSIONAL SERVICES**HARMONY CONNECT (CA) JUMPSTART PROGRAM**

CHECK POINT
PROFESSIONAL SERVICES
Consult • Design • Deploy • Operate • Optimize

The Harmony Connect Corporate Access (CA) Jumpstart service is meant to assist with designing, deploying, validating and supporting your 'Go Live' of up to 20 users and 10 applications.

THE SERVICE:

Harmony Connect (CA) Jumpstart includes the following activities:

Design and Planning

- A. Discuss pre-requisites including but not limited to IP addressing, port communication, etc.
- B. Ensure the purchased software and licenses contain all the required components for the design.
 - I. Gather information related to applications to be shared; validate the type of tunnel to be created for each (Web, RDP, Database, SSH, Bare Tunnel).
 - II. Gather information related to network design.
 - III. Gather physical location of each site/application.
 - IV. Gather information around IDP or Local user selection.
- C. Check Point Professional Services will document and depict the deployment to ensure the fundamentals are correct from the beginning.
- D. Detailed 'Method of Procedure' documentation defining the entire install process.
- E. Provide details related to Corporate Application tunnel endpoint requirements.

Pre-production and Implementation

- A. Provide customer with the necessary cloud infrastructure access.
- B. Pre-production setup and configuration of up to one (1) Harmony Connect management console.
- C. Work with customer to define appropriate POP selection and create site for proper operation.
- D. Provide Docker creation script to be run on designated tunnel endpoint system.
- E. Create customer requested applications and test basic functionality.
- F. Configure system to connect to customer IDP (if required).
- G. Add users/groups to system (if IDP is not in use).
- H. Set permissions for applications based on customer requirements.
- I. Validate that the deployment was successful.

Production Cutover:

- A. Out of hours cutover/Go Live assistance.

Knowledge Transfer:

- A. Management Setup, Installation and Maintenance.

YOU DESERVE THE BEST SECURITY

Documentation:

- A. Elaborate questionnaire to confirm connectivity requirements and proposed design.
- B. Detailed 'Method of Procedure': a document depicting the entire install process with every command and configuration step used in the deployment.
- C. Sign-off/Check sheet ensuring install to Check Point best practices.

Add-On options:

Additional blocks of user deployment in 50 user chunks and/or per branch office.

Out of Scope:

- Deployment is limited to one (1) Harmony Connect infrastructure.
- Deployment, or pilot deployment, to a maximum of twenty (20) users and one (1) Branch Office.
- Policy conversion/migration from other third-party vendors to Check Point.
- Training material and delivery.
- Post 'Go Live' review or optimization.
- Adjusting application to better support HC CA infrastructure.
