CHECK POINT™
YOU DESERVE THE BEST SECURITY

SMART-1
SECURITY MANAGEMENT PLATFORM

All-in-one security management solution, with integrated policy management, threat visibility, workflow and orchestration, enabling security consolidation across any IT environment.

All-in-one Security Management

Industry leading Gold Standard platform for consolidated security management

Full Threat Visibility

Single visual dashboard fully integrated with logging, monitoring and event analysis

Enterprise-Ready Scalability

Centrally Manage 1 to 5,000 High-Performance Gateways

Smart-1
405 | 410 | 625 | 5050 | 5150

Smart-1

**R80.x | SmartEvent | Compliance | Workflow | Multi-domain Management | Automation**

Growing networks, disruptive technologies, and the proliferation of interconnected devices demand a new approach to managing security. Check Point Infinity architecture consolidates management of multiple security layers, providing superior policy efficiency and enabling you to manage security through a single pane of glass. The single management centrally correlates all types of events across all network environments, cloud services and mobile infrastructures.

The Smart-1 405 | 410 | 625 | 5050 | 5150 dedicated appliances are optimized for performance and scalability with both HW and OS hardened from the core.

Smart-1 security management platforms double management capacity and boost performance, increasing security efficiency.
Key Features & Benefits

Policy Management…………………Unify network and cloud policy in a single pane of glass

Integrated Threat Management……Real-time forensic and event investigation, compliance, and reporting

Data Storage and Performance……Manage thousands of objects and rules and millions of events

Management Console

Enterprise-Ready Scalability

Smart-1

Enterprise-Ready Scalability

MGMT Server | Smart Log | SmartEvent

Multi Log Management

Multi Domain Management

SPOTLIGHT

Unified Console to Manage Everything

With one console, security teams can manage all aspects of security from policy to threat prevention – across the entire organization – on both physical and virtual environments. Consolidated management means increased operational efficiency.

In addition to a unified console, you also now have a unified policy to manage everything from users to data to gateways. Access, controlled in one policy.

Reports & Compliance

Take control and monitor all your gateways in real time. Easily generate and schedule reports. Over 300 Security Best Practices, regulatory compliance checks.

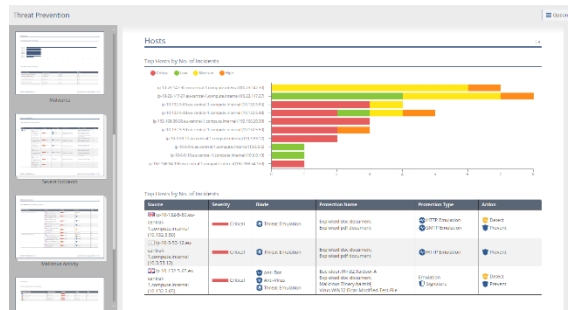

Real Time Integrated Threat Management

For deep forensic analysis, we've integrated logging, monitoring, events, governance and compliance. R80.x SmartConsole gives you full visibility and control across your network.

Security Efficient Operations and APIs

Improve productivity with automation API that orchestrates workflows and aligns security with IT processes and systems.
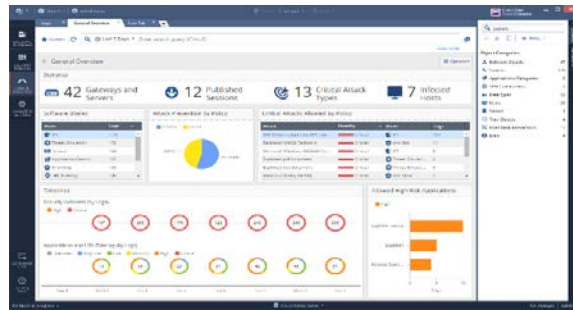

Multi-domain Management

Easily manage hundreds of private networks within the same infrastructure and create up to 200 domains based on geography, business unit or security function.

Modular and Scalable

Manage thousands of simultaneous sources, thousands of rules and millions of transactions with up to 8x the data storage and performance on a single machine.

Modular platform supporting up to 24 cores, 256GB RAM and 48TB of storage for any deployment environment.
