Check Point Software Technologies Announces Extension to the Share Repurchase Program

SAN CARLOS, CA — May 10, 2016

- Check Point® Software Technologies Ltd. (NASDAQ: CHKP), today announced that its board of directors has authorized an extension to the company's on-going share repurchase program. Under the updated plan, effective immediately, Check Point is authorized to continue to repurchase up to \$250 million of shares each quarter, up to an aggregate of \$1.5 billion. Since the beginning of 2015 and until March 31, 2016, we repurchased approximately 15.17 million shares for an aggregate purchase price of approximately \$1.23 billion, which represented an average repurchase per quarter of \$246.6 million.

As of March 31, 2016, Check Point has approximately 172.09 million ordinary shares outstanding. Check Point started its share buyback program in 2003, and since has repurchased approximately 130.8 million shares for a total purchase price of approximately \$5.07 billion. The new plan replaces the previous repurchase plan adopted in January 2015, which provided for the repurchase of up to \$250 million of shares each quarter, up to an aggregate of \$1.5 billion.

Share purchases will take place in open market transactions or in privately negotiated transactions and may be made from time to time depending on market conditions, share price, trading volume, and other factors. Such purchases will be made in accordance with applicable U.S. securities laws and regulations. For all or a portion of the authorized repurchase amount, Check Point may enter into a plan that is compliant with Rule 10b5-1 of the United States Securities Exchange Act of 1934 that is designed to facilitate these purchases. The repurchase program does not require Check Point to acquire a specific number of shares, and may be suspended from time to time or discontinued. The share repurchases will be funded from available working capital.

Legal Notice Regarding Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements generally relate to future events or our future financial or operating performance. Forward-looking statements in this press release include, but are not limited to, statements related to our expectations regarding the shareholder repurchase program. Our expectations and beliefs regarding these matters may not materialize, and actual results in future periods are subject to risks and uncertainties that could cause actual results to differ materially from those projected. These risks include our ability to continue to develop platform capabilities and solutions; customer acceptance and purchase of our existing solutions and new solutions; the market for IT security continuing to develop; competition from other products and services; and general market, political, economic and business conditions. The forward-looking statements contained in this press release are also subject to other risks and uncertainties, including those more fully described in our filings with the Securities and Exchange Commission, including our Annual Report on Form 20-F filed with the Securities and Exchange Commission on April 28, 2016. The forward-looking statements in this press release are based on information available to Check Point as of the date hereof, and Check Point disclaims any obligation to update any forward-looking statements, except as required by law.
