## About Hexnode UEM

Hexnode, an enterprise software division of Mitsogo Inc, stands at the forefront as a global leader in Unified Endpoint Management. It is a comprehensive platform-agnostic solution that combines the concepts of mobile device management, enterprise mobility management, and traditional endpoint management into a single cohesive framework.

Hexnode UEM doesn't stop at just managing devices; it delves into the realm of meticulous control and security across your entire IT ecosystem. These advanced capabilities boost productivity and strengthen your defense against cyber threats, all while streamlining time and reducing overhead expenses.

## Comprehensive control and security for all your enterprise IT

### Remote monitoring and management

Effortlessly oversee and control devices across multiple platforms from a centralized console.

### Kiosk lockdown management

Transform your devices into dedicated kiosks and digital signage, easily supervised and managed.

### IT asset management

Maintain and manage an inventory of all your hardware and software assets.

### Security management

Safeguard your devices, data, and networks by mitigating security vulnerabilities through tailored policies.

### App management

Seamlessly deploy and manage both public and in-house apps on all your devices.

### Content management

Distribute files of any format to enterprise devices without compromising security.

### Identity & access management

Ensure that the right users have access to the right resources.

### Rugged device management

Secure and manage rugged devices throughout their lifecycle.

### Telecom expense management

Maintain control over telecom expenses via data usage tracking and periodic usage reports.

### Patch management

Simplify the management of Over-The-Air patches for all managed devices.

### Zero-Touch Deployment

Set up devices with zero-touch provisioning, pre-configured for end users right out of the box.

### AI Powered Custom Scripting

Automate device management with AI-driven custom scripting and real time chat-bot assistance.

## Why Hexnode UEM

- ◆ **Cloud-Based & Hassle-Free:** Manage and monitor devices remotely without on-prem infrastructure.
- ◆ **Automation & Scheduling:** Streamline IT with automated tasks, policy updates, and scheduled reports.
- ◆ **Scalable for Growth:** Effortlessly expand device management to match organizational needs.
- ◆ **Flexible Pricing:** Pay only for what you need, from basic MDM to full UEM and kiosk solutions.
- ◆ **Quick & Easy Setup:** Get devices enterprise-ready right out of the box.
- ◆ **AI-Powered Assistance:** Automate scripting and troubleshooting with AI assistant Hexnode Genie.
- ◆ **24/5 Expert Support:** Reach Hexnode's team via call, email, or chat for real-time assistance.
- ◆ **Versatile Management:** Support for BYOD, CYOD, COPE, and COBO with tailored policies.

## Maximize efficiency with a range of integrations
