

## THE NELYSIS MISSION

The increasing number of physical network devices lacking adequate security or monitoring systems is exposing networks to immense reputational, financial and operational risks

Nelysis is a unique 'single pane of glass' solution tailored for safeguarding buildings and critical sites security and operational networks

The market is estimated at \$30-50 billion annually, and remains largely untapped

### VAST UNPROTECTED ATTACK SURFACE ACROSS EVERY SECTOR

#### MILLIONS OF BUILDINGS

#### THOUSANDS OF DEVICES

#### ATTACK SURFACE

35 billion devices globally

### HIGHLY VULNERABLE PHYSICAL NETWORK DEVICES

#### DESIGN VULNERABILITY

Minimal Hardware  
Lean Firmware  
Unmonitored Devices

#### POTENTIAL RISKS

In-Transit Tampering  
Rogue Technician  
Malicious Firmware  
Remote Exploitation

#### GLOBAL THREATS

25% of global cyberattacks

## BEYOND TRADITIONAL CYBERSECURITY

Avoid Blind Spots With Real-Time Asset Visibility

Comprehensive Asset Management & Control

Analyze & Isolate With AI-based Asset Intelligence

Increase Operational Efficiency & Network Resilience

Patented Stealth Out-of-Band Technology

Full Compliance, Data Protection & 3rd Party Integration

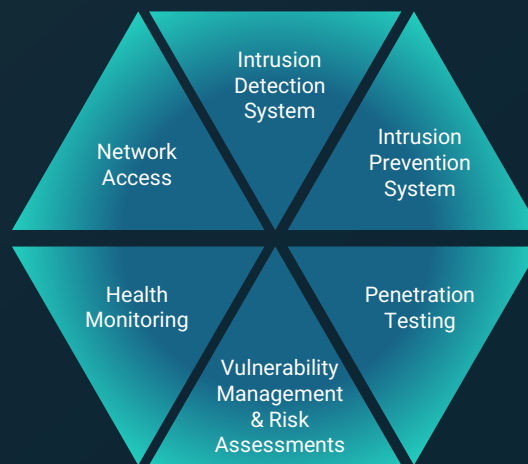

## THE NELYSIS 'SINGLE PANE OF GLASS' PLATFORM

**1** Risk & performance focused, vendor-agnostic, agentless mapping, assessment and scoring of network devices

**2** 360° real-time autonomous tracking & detection of cyber threats & operational malfunctions

**3** AI-enhanced root-cause analysis, with threat & operational malfunctions segmentation

**4** Automatic enforcement and quarantine of physical network assets

- Designed for buildings
- 6 in 1 solution
- Seamless integration of functions
- Lower costs
- Caters to NOC & SOC
